Just a few Words...

Friday nights is the best part of the whole week so it's time to have a slack so usually we don't do prep, so we watch T.V. or sometimes the house masters show us videos and we don't go to bed until 10, 11, 12.....?!!

Then on Saturday morning, we usually attempt to crawl out of bed or get pulled out by a house master and then stand there and freeze. So you go back to bed or have a cold!! shower. Then you have breakfast, then have dorm inspection, go to Bunbury or Harvey in the bus. In Harvey, we have to wear uniform so we get stared at by everybody. Then we go back, have lunch and do nothing until tea. Then we usually go to the Drive-in or watch T.V. then you go to bed.

Sunday is the best and the slackest of the whole week or weekend so we stay in bed just about all day except for breakfast and lunch.

This is a free weekend which happens every other weekend or you would usually be doing dairy, pigs, garden or washing cars.

**Here's to Mark Bendotti
Alas he is no more
For what he thought was H20
was H2S04**

One morning there was a 7 ft. boomer that jumped in front of the car. "Well," I said (he had done this many a time) "this is the last time he'll do this" so I got out and kicked him, ducked and dived his first attack, gave him an uppercut that leapt up (as I am only 5'2") and got him in a head lock, I then added a knee to the guts then dislocated his neck. He then pleaded to put his neck back in so we bargained. I put his neck back in and he never jumped in front of a single car — total time wasted - 8 minutes.

—Greg Norton.

There was a boy named Pete
Who couldn't drive a jeep
Soon after everyone thought he was missing
But really he was having a wrap in the Nissan
He dropped the clutch and started reversing
And Egerton-Green started rehearsing
Pete was still asleep
And Egerton-Green started to weep
He then hit the gate
And Egerton-Green said, "Thats it for you mate!"
Pete then jumped out and had a nap
And that was that.

During Cyclone Alby we had a fire on our place and there is a house on wooden stilts 1'6" high and the fire went straight under it without even blackening the stumps also we had feed lot feeders and during the storm the wind blew them over...next morning we went out to turn them upright and because the wind had changed directions during the night they were all upright next morning "no spin."

Nevil Bell — Bull - The weights man
Mark Bendotti — Buddah - The only Italian fireman.
Don Butcher - Denmark Don - The stirrer.
Keith Elliot - Smiley - Smiles 24 hours a day.
Brian Elson - Bigus - Expert potato cutter.
Kevin Fowler - Sticks - Loves eating eggs.
Stuart Gledhill McCulloch - The tattoo man that gets 'cut' too easily.
Philip Hall - Moose and Uncle Sam - Holds the record for writing the most letters and ringing his girlfriend.
Tim Hallyburton - Copper Top and Red Ned. - Mr. Sandover Medallist.
Vernon Jacob - Verge - Doctor Jacob M.D.
Barry Marshall - Lurch - Tallest Aggie.
Angus McFerran - Hunger striker I.R.A.
Paul Miller - Mildew - The football star.
Greg Norton - Short - The short Mr. Sandover Medallist
Todd Norton - Toad and TTT.
Peter Paisley - Peter the Piggery Destroyer.
Clay Rose - Rosey and Mud.
Chris Stamp - Spud - Never out of trouble.
Rodney Simpson - Rod Rocket - Speed kills.
David Stockhausen - Stockie.
Bruce Van Hofe - Brouse - Mr. Motorcross.

CULL - A person who is rejected
SUS - Suspect, suspicious
GIBBER - Spinning yarns
SPIN - Exaggerating stories
YARN - Talking
OO YAK - You have just made a fool of yourself
COONACK - Same as OO YAK.
GOOD HEAD - Good Head to throw rocks at
GAFFED — Found to be wrong
TO FISS — To leave quickly
CUT - Very aggravated and mad
HORRA STASH - Crashed
SPRUNG - Caught doing something wrong
GAGGED - Blundered
CHEESE - Aggie butter
FREED A HOE - Breakfast, lunch or tea or even eating in between
BREW — Pot of tea
ZIT - A pimple
MELON - A student doing an agricultural course.

His eyelids wrenched open to the burning sensation of the ultra-violet rays piercing his eyes and blazing into his eyeballs with all the built up ferocity that it could muster. He directed his gaze to the blueness that surrounded the inflamed horizon and the pain subsided in his eyes. Slowly, he found that other parts of his body could be used for transportation and soon he was able to move about and discover the sights and sounds that surrounded him. He found that transportation on all four body extensions was comparatively slow as opposed to an erect stature using only the two extensions so in his new found state he manoevered himself to within distance of a rock so he could observe the area more thoroughly. In front of him was a vast expanse of green that rolled with such a force like crystal cylinders and exploded in great cascading showers that filled the skies with white foam and spray. In his fascinated stupor it suddenly dawned on him that he must have been put here for a reason and so turning this thought over in his mind, he headed for the open space of the hot desert area to find out his purpose in his new found existence.

—R. Gray.

AG WING EDITORIAL THINK TANK AT WORK.

Around 200 days from February the 8th
'til we pack our bags and drive out the gate.
A day of joy for us for sure
Knowing we don't have to come here no more.
But we're not looking forward to this "great" day
We don't want to leave here in away.
This place has given us a lot
To say we haven't enjoyed it is nothin' but rot.
Just think!

With heaps of activities we don't get bored
The best food in Australia, "Smorgasbord."
Teachers and students get on real fine
Fun and laughter most of the time.
Our attitude to work is second to none
Give us an assignment and we get it done.
No questions asked, no grumbles heard
Would we complain? That's absurd!
We wouldn't know the meaning of "strife"
To us it merely rhymes with "life."
Teachers agree, we're the best group there's been
No trouble from us, no trouble seen.
"Home away from home," a verse just right
To describe this place by day and night.
The warmth of the dorms, a mildness that meek
The feeling of contentment we don't have to seek
Makes us proud to be here and here to stay
We don't want to leave on that "great" day.

But what a lot of jibber this is
It's only fit for the fire!
My God!
I never knew I could be such a great liar.

—Murray Galati.

NUTTY

SCRIPTS.

Beautician
Lady
Midwife
Farmer
Cook

Lady: Will you beautify me for the rockin'
 Midwife: hospital because I want to look nice for my
 Farmer: newly born calves.
 Beautician: How do you want it done?
 Cook: Brownd on both sides so it will
 Beautician: blend in nicely with your green
 Farmer: Grass for the cows to eat
 Midwife: with my baby it's coming I can feel it
 Lady: working on my hair. I hope it looks good when
 Cook: you add the gravy for my recipe of
 Midwife: Boys. Its two boys. I'm so
 Lady: pleased about my new hair do. How much
 Cook: About two eggs with a pinch of salt to mix
 Farmer: the milk around swiftly with our new machin-
 es, its much better
 Cook: on toast with a drink of our new
 Beautician: hairspray.
